

## **Discipline Committee**

### **Our Mission**

On the basis of the whole-school approach, the Committee aims to cultivate an orderly and harmonious learning culture, enhance students' whole person development and help them meet the challenges of the ever-changing world.

### **Rationale**

We view discipline in the context of our school as well as in the wider context of quality education so as to boost a school spirit of good discipline which is conducive to learning. With more than rules and control as the fundamental element, students should be committed to fostering positive values and having holistic development through participating in various kinds of activities which help to reinforce students' positive, self-motivating and law-abiding behaviour in the long run.

### **Long-term Plan**

1. To build a harmonious school environment
2. To develop in our students a sense of self-discipline
3. To instil in our students respect for others
4. To arouse our students' awareness of the importance of responsibility and integrity
5. To enhance our students' whole person development

### **Main Emphases in 2014/15**

1. Broadening students' perspectives and heightening their social awareness
2. Developing students' positive values and attitudes
3. Fostering a harmonious campus
4. Recognizing students' commendable behaviour
