

Subject Department: History

Our Mission

1. To help students develop an understanding on the changing relationship of people, locations and events in the past and its impact on human society;
2. To help students appreciate the characteristics and values of their own culture, and respect the culture and heritage of other communities;
3. To develop students' interest in the study of the past and appreciation of the uniqueness of the discipline of history;
4. To assist students to prepare themselves to become informed and rational members of the locality, the nation, and the world.

Rationale

We believe that students should be provided with enough historical knowledge before they can have a better understanding on the society and the world where they live in.

Long-term Plan

1. To enhance students' ability to search historical sources themselves.
2. To encourage students to visit museums in Hong Kong so as to arouse their interest in history learning.
3. To assist students to prepare the implementation of Senior Secondary History Curriculum.

Main Emphases in 2014/15

1. Make history more interesting to learn and to bring history alive from students' daily experience.
2. Encourage students to express their views on historical events in order to enhance students' critical thinking, communication skills.
3. Implement good learning skills in teaching and learning so as to develop students' academic potential, and to enhance whole person development to meet the challenges of an ever-changing world.
