

Subject : Project Learning

Objectives

Project learning aims to facilitate students' independent learning capabilities, develop their generic skills and interpersonal relationship. It also enables students to construct knowledge, broadens their horizons, integrate and apply their knowledge within and across various Key Learning Area.

Rationale

Project learning provides a good opportunity for students to transfer knowledge to experience through searching, analyzing and organizing information. It is a good vehicle for facilitating students' development of the nine generic skills.

Long Term Plan

1. To well-equip students with the skills for doing project work in the New Senior Secondary Education Curriculum

2014-2015 Action Plan

1. Joint-departmental projects
2. Cross-curricular projects
